Yes, we do. Sometimes it can indeed be helpful to have an attorney that has some basic knowledge of cryptocurrency. We've worked with many attorneys we can recommend.

If you are looking for a recommendation or referral to an attorney shoot us an email at team@cryptoforensic.com and let us know

1. A brief and basic background about the nature of the matter
 2. What jurisdiction the relevant parties are located in or what potential jurisdiction you are thinking of bringing the proceedings in, so we can recommend an attorney licensed in the applicable U.S. state or country.
